MTM, meaning custom-made production,
falls within the concept of
SLOW FASHION.

Slow fashion emphasizing quality, sustainability,
and an individualized approach to garment
manufacturing.

The MTM approach ensures that each piece is
precisely created based on the measurements
and preferences of the customer, promoting
personalization and reducing mass
production.

This combination of approaches supports
sustainability and a less superficial consumption
in the fashion industry.

100% LINEN Lightweight Suiting

- Breathable
- Natural Texture
- Softens Over Time
